

BEYOND TIME AND SPACE INTO THE WORLD UNDISCOVERED INSPIRIT WITH RASHMI AIYAPPA

“Aashwasan truly means solace to my family and me. When we were going through a difficult period in our life, like a beacon showing us light and guidance, Rashmi Aiyappa came into our lives. She and her healers instilled faith and reassurance and helped us evolve and change beautifully as a family. We are indebted to Rashmi for helping us see challenges as opportunities and live life fully, happily.” shared a teacher who came with her husband.

“I feel bliss. I feel I found my guide.” shared a participant. “My shoulder pain went away after the session,” shared another participant.

“For years I was disconnected with myself and people around me. For the first time I feel connected deeply with myself again. And I also feel connected to people around me,” shared a brand consultant.

“First of all thank you so much for bringing Rashmi Ayyappa to KL. It was truly a nice experience. Always we are in our own world and going through same imaginations and beliefs and our own judgements in life. And then suddenly when we meet Rashmi it will remind us that life is more beautiful than this and don't just go with the flow but stop for a second and be present and be alive,” shared a doctor.

“It was a very successful event from many aspects. Rashmi, you were a beautiful and gracious host, speaker and facilitator. You shared generously your knowledge and spiritual gifts. Your personal sharings were much appreciated. The healing session was invaluable to everyone present. No doubt, each person's experience would have been unique and beautiful. My family and I are so happy we reunited with you and your team. We wish you and your team abundant blessings as you continue to share your gifts with the world,” shared the executive chairman of a training and consulting company.

These were some of the experiences shared by the participants, who attended the event -

**Beyond Time and Space into the World Undiscovered,
Inspirit with Rashmi Aiyappa,**
held at Pullman Hotel, Jalan Conlay, Kuala Lumpur.

A profound introduction to Ms Rashmi and Aashwasan set the tone for the evening. The presentation opened up a lot of unknown and unexplored sides of life and creation. People looked intrigued that brought a reverberating silence and restless anticipation. They were eager to experience the zero frequency session Ms Rashmi Aiyappa was there to facilitate. People were prepared soulfully to be open to receive the gift of transformation. As the Zero Frequency session started, a deep silence engulfed the room as if reflecting their inner being that enabled them to connect to their deepest experiences. Hearts poured out. People found a space to express what they felt. Some wondered why they felt what they felt, and some remained silent with their experience. A participant's innermost fear surfaced, and she found an answer that empowered her to resolve it. One asked about the cycle of Karma to find answers to her inner quest about destiny and choice, and also got clarity on Aashwasan's role in it. Another person felt deeply connected to her soul's journey through lifetimes, which brought a deep sense of clarity and assurance in her. Many felt calm, light and free. It was a unique experience, some shared. Some didn't experience much, but felt a deep sense of assurance and hope. It was a humbling experience to witness people open up and express, and through that expression get a glimpse of their deeper self.

The entire ambiance was that of gratitude as many acknowledged and thanked those who were instrumental in them being part of this momentous evening. They were deeply thankful to Ms Rashmi Aiyappa for having taken them through this journey. Most of them shared that they wanted many more to come to Aashwasan as they felt that there are many who were waiting to see hope in their life. Many of them stayed back to inquire more about their individual journeys to resolve and refresh their lives once again.

The evening of 28th April became a turning point in many lives. A journey that began as a possibility culminated into a destined reality.
