Human Excellence - the Humane way

Excellence Fast Forward

Awareness Program

Imagine if we can do a particular task at 100-fold levels of efficiency and speed. What will this do to our life? Imagine if we can do this by marshalling all-natural resources of our existence. What if we become healthier and happier as we embark on these pursuits? What if we feel free? It is possible to experience our true grandeur as we unveil our breathtaking self.

Human beings are born to excel in all aspects of their life. However, with the passage of time as one wades into adulthood, conditioning, limitations and self-questioning start chipping into this innate compass of achieving excellence. As adults, we feel our limitations and constraints more not because we have lost the inborn quality of excellence, but because a yawning gap has set in and insufficient experience has degraded the connection to this innate quality. Habits, conditionings, set beliefs, deep rooted fears make us prisoners to life- we feel cowed down. It feels like we have to run a marathon with heavy weights tied to our legs. We might imagine that this impacts our path of excellence and growth only marginally but we cannot be more wrong. The difference can be a magnitude of 10/100 or even 1000.

Here is what some of the participants had to say...

- This program gave me invaluable and insightful description on myself and gave me a new perspective of life. Self Awareness is the key to excellence. I am amazed now looking at unlimited possibilities.
- For me the program identified the beautiful you that was within me.
- A beautiful insight to one's own journey.
- The session enlightened and gave us a knowing of our strengths and guides us to get focused towards excellence.

To experience these possibilities within you, we welcome you to an innovative program – Excellence Fast Forward, where you dive deep into the pursuit of excellence. While the actual program is experiential and spans over 10 weeks (10 days, 2 hours a day), the awareness program gives you a glimpse into a world of fascinating possibilities.
