For the first time in the world, Aashwasan has brought forth Spiritual Science to transform lives. Aashwasan was founded by Ms. Rashmi Aiyappa, the world renowned spiritual scientist, who was born with the ability to see through lives of people – past, present and future in a single moment. Experiencing time as a single dimension, she experiences creation and all its manifestations. She understand the root cause of various conditions manifesting in humanity such as genetic issues, cancer, psychiatric conditions, neurological issues, degenerative illnesses, autoimmune disorders, developmental disorders etc. Spiritual Science stands as hope for all as it offers breakthrough diagnostic, treatment and assessment services which are rendered through her channels or Aashwasan Practitioners.

***Aashwasan services have brought unprecedented breakthroughs in cancer at preventive, curative, palliative, pre & post operative levels in individuals all over the world.***
